Customer Reviews

I would not recommend this product. It is very general resulting in grossly inaccurate scores. There are also a lot of typos and incorrect questions. Questions that say "select all that apply" and you can only select one. I like the idea that you can test off of your weak areas, but when you’re scoring nearly perfect scores on areas you know you shouldn’t be it doesn’t give you an accurate representation of what your weak areas are. Unfortunately, this was required for my school. If you’re buying this buy choice I would say keep looking.

Excellent review for NCLEX! I have even seen some of these questions come up on exams.
