Synopsis

Completely portable, this pocket-sized collection of full-color, spiral-bound cards uses humor, cartoons, and mnemonics to help you understand and retain important information about fluids and electrolytes. This fun, colorful, and insightful approach makes these cards a valuable learning and review tool throughout nursing school, as well as a great resource for preparing for the NCLEXÃ Â® examination.UNIQUE! 64 full-color, cartoon mnemonics cover key fluids and electrolytes and acid-base concepts. UNIQUE! Colored highlights draw attention to four central topics: Serious Life Threatening Implications in pink; Common Clinical Findings in blue; Important Nursing Implications in yellow; and Patient Teaching information in green. Concise What You Need to Know information on the back of each image highlights key information and specific nursing implications. Spiral-bound pages made of thick, substantial card stock are durable and portable. Color-coded thumb tabs feature a different color for each section for easy referral. 15 new cartoons help you master the latest information on fluids and electrolytes. New topics include: Homeostasis: A Question of Balance and The BodyÃ¢â ¬â„¢s Water: Keeping It Where You Need It.

Customer Reviews

Wonderful notecards. I used it for my recent Fluid & Electrolytes test and I was able to remember what the cards said by the pictures. Honestly one of my favorite notecards out there. I have two quarters left of nursing school and I am certain that I will keep on using this!

These are great little note cards all in a binder to take with you on the go. They are very helpful when trying to learn fluid and electolytes. Knowing F & E is extremely important for any practice and if you are like me and need more than just textbook, then these notecards are worth the purchase.

Great for learning easy to carry.

Love it! Very useful! Simple to understand! After getting this, I'm buying the pathophysiology one too :)

Made fluid and electrolytes easier to understand with helpful pneumonic and cartoons for quick recall.

Love the flip charts!

If your needing help with fluid, electrolytes and acid base balance this is the best book to buy besides practice tests. This is small, portable and very easy to understand.

Really love these cards. They have helped me in OB, Pharm, and Fund. Great illustrations, and mnemonics, easy to read and follow and on the back of the pics they have nurse interventions and considerations listed! Only wish I had one for every subject!
