Customer Reviews

This book contains excellent ways to learn Spanish easily. Lessons are well planned, and you will easily and gradually learn the pronunciation and grammar. Pronunciation guides very helpful and detailed. the length of this book also makes it a plus. this book also gives you a big list of vocabulary and then even a lot of examples. I always struggle with the genders, or in the past tense. I recommend this book for anyone that wants to learn Spanish and is willing to put in the work!

Very practical guide to start learning the Spanish language. This book is a lot of help for me to become familiar with Spanish. I had a friend who speaks with this language and that’s what made me study this field. I greatly learned a lot from this book. A good teacher with all the illustrations needed to easily understand and apply Spanish like a native.

As a person who reviews a ton of how-to-learn Spanish products for a popular learning Spanish blog, I received an advanced copy of this book in exchange for my honest opinion. And I must say, that I truly enjoyed reading every page of this book while learning a bunch of Spanish. In fact, I even decided to purchase the book after its release to have a copy in my reader cloud acct.

Really good book to learn new language if you are beginner and even if you already have experience in Spanish language. Consist a lot of different topics to learn and grammar also. So, you can reach elementary level of language with many Spanish words and gramma quite fast.

The Spanish language is magical and very complex in my opinion. I personally know some few basic words but I want to learn more of it. The book is really helpful and informative in learning the language. I like how it is simple and perfect for beginners like me.

Pretty good and useful guide about learning one more extra language. Good description of grammar, structure, vocabulary and speaking tips. A little bit lack of examples, common phrases to use in everyday life situations.

This was a good beginners book to have. It was a solid introduction to Spanish with basic good vocabulary. Must read to anyone traveling to a Spanish speaking country.

Easy to grasp concept, grammar and vocabulary. I teach Portuguese at university level and I think this book follows a comfortable but challenging path to learning.
