Steve has many years professional experience of collaborative practice with the major educational publishers, editors, in-house designers and authors. His creative practice includes illustration, logo design, cover design and full series design including online resource. His primary passion is for children's illustration and this is demonstrated in his creation of the new Collins Picture Atlas alongside the accompanying World Map and, more recently, the map of the United Kingdom & Ireland.

Bought this to teach my 3 year old regions of the world. Map is brightly printed and and my son loves it!

The colors are not nearly as vivid as in the image and the paper extremely flimsy. I will need to by a

larger laminated map with brighter colors for my kindergarten reading corner.

Good quality!!! I love the high quality shipping also.

I bought this map to use in my preschool classroom and the kids love it! I got it laminated at Staples and will be using it for many years to come.

Good map for preschoolers and older to learn about the world. Mixture of animals some landmarks.

bought for my grandchildren and they loved it
