Customer Reviews

Handsome two volume set of The Greek Myths by Robert Graves; Kenneth McLeish and Grahame Baker

For anyone interested in Greek Mythology, this is a very good 2 book vlume to check out. It tells us how the Greek Gods came into power and gives us detailed stories about them. It also has many of the popular stories like Heracles, Pandora, The Trojan, Ulysses and many many others. Although many of the names are very difficult to pronounce, it is still a very enjoyable read if you are interested in Greek Mythology. For those interested in the subject, I recommend this volume. If you are moderately curious, I'd recommend this volume. If you don't know much, or really anything about the Greek Myths, I think this is still a good place to start to learn about many of the Gods and Goddesses and heroic stories.

I've always been fascinated with ancient mythology, particularly Greek, but the information I had on it was extremely limited. This book is a great addition for people who are interested in the old myths.

S'ok. Quality I felt was lesser than what I usually have come to expect from the Folio Society.

I like these books. Well written by Ken Graves, each chapter is accompanied with a historic or factual essay that explains the roots of the story. Useful index. Yes.

Still reading but entertained so far.

The best (and most comprehensive) collection of Greek myth I know. Wore out my first copy.

good resource

Condition exactly as described by the seller. Graves is as much a novelist as a Classics scholar. Interlinks the manifold accounts of the pantheon of Greek gods.
