Printed on a single side of a synthetic paper, so likely to be quite durable. Doesn’t have every side street, but includes all the roads i’m expecting to need to drive on when I visit Puerto Rico. Appears to be much better than Fodor’s pull out map or the worthless map AAA provides, but I’ll know more in a couple of weeks when I actually visit the island and try to drive!OK, I’ve returned from my trip and this map helped a great deal. Certainly the best map of the island I’ve found. Google maps on my phone and IPad worked in parts of the country and was helpful too. Biggest issue with this map is they say things like "Luquillo Beach is considered the best beach in Puerto Rico" and then don’t show you where Luquillo beach is (it is not in Luquillo, it is Northeast of there) and fail to mention that the highway signs don’t call the beach Luquillo beach. Also, some of the numbered roads shown on the map were closed, possibly because of heavy rains in May. I’d say this map is important to have if you want to get from one town to another, and not very useful for finding specific locations within one of those towns.

The paper quality is good, a type of wax/water resistant type which helpful. Big tourist attractioms like famous beaches, certain haciendas and snorkel/dive spots are noted on the map.i take serious issue with this map though, for the following reasons:- I notice that there's words missing on the map! Like 'observatorio de' and then nothing! This should be concluded with the word 'Arecibo' of course.- Cross checking with Google Maps prior to our departure i noticed that the coastline is reflected really very conceptually amd is sometimes unrecognizable.- Parks like Toro Negro and certain cities appear far bigger than they do on google maps.- Certain locations, most notably with Ceuva Ventura, are completely in the wrong place! The map says its practically in Utuado, while all internet and other guide book references place this north of Bosque Rio Abajo, in the Arecibo region.- it's also conceptual with road/carretera and river curvatureIt's really an overview map, to have a general idea of where you want to be and know where attractions are generally (take this word literal). I wont be using this for getting around though.
