Customer Reviews

Wonderful take on flirting from a woman who knows the subject well and has published many books on it - Stella Belmar.The book is well organized and provides the right advice for men to successfully flirt and date women. I haven't put it to the test yet but it all makes sense and also offers a glimpse into the woman's psyche. This book should and will give men out there who are either uncomfortable, too aggressive or too shy a masterful class on how to handle the ladies in

multiple circumstances for a possible and most likely eventual romance. Thumbs way up! Start flirting gentlemen and reap the rewards.

Well-written and gets straight to the point. Lots of ideas, and is portrayed in a sensible, easy to digest manner with lots of bullet points. And I ended up with a bit more confidence to interact.

I have read a couple of her other books and they have definitely helped me. This one also contains lots of great tips regarding the 'average bloke' connecting with women. I like her take on why it's important to flirt and also the connection that gets created when flirting. I will keep you updated on my progress :-)
