Customer Reviews

I loved the fact that this book is written with easy to understand instructions. Rose Quartz is one of my favorite stones and I have several.

I have given this book 5 stars because it was very helpful. Looking forward to the next one

A little book that offers sweet spells for self-love and admiration. I thoroughly enjoyed it.

I received a copy of this book from the author in exchange for a review. I must admit, I got this because the idea sounded interesting but I really don't believe in magic. Even so, I think this book was very good! It was written in a more academic style, with great descriptions and instructions. In fact, although I'm not personally a magic believer or user, I am considering going out and buying a rose quartz, just to try out some of the spell in this book. If you are looking to begin learning Wiccan magic, or are simply interested in this style of book, I would definitely recommend this one!
