Customer Reviews

This book contains 300+ flash cards to help you study for the California Basic Educational Skills Test. They are like flash cards as the front has the question and the back shows the answers. There are 3 "cards" to a page. These are on regular paper but you could easily cut them out if you wanted to use them in the traditional way of studying with actual flash cards.

These flash cards are a great way to help you study for the CBEST. There are over three hundred different questions/cards and they cover the entire test. The questions are also in different formats, so not everything is going to be the same "yes/no" or "true/false" type of question--it will be formatted similar to what you'll see on the test. I thought that studying with these flash cards was quicker than using a regular study guide. I'd recommend these flash cards to others.
