Customer Reviews

Angelo Tropea is an expert at preparing candidates for civil service examinations, and national exams. By means of books, software, film and personal presentations, he succeeds in turning what is difficult into something easy and fun to learn. This applies especially to the New York Notary Public Exam which he has simplified in this Question and Answer book.

I purchased this in addition to Pass The New York Notary Public Exam Second Edition. I’m not sure if I needed this one as well. But it didn’t hurt. Turned out to be an excellent study tool. Makes the Notary Law easy to understand. I read it cover to cover, quizzing myself around 10 times. Passed on the first try!!! But the actual test was harder than I thought it would be. The 40 multiple choice questions are worded differently than in this book that lead you to doubt yourself. They give it a

twist. Go with your gut. You studied hard. You know your stuff. And memorize the fees. Good luck!!!

Pretty much the same information that is free from the notary public test exam study guide I took out of the library for free. The free book from the library also includes 640 questions and answers. Also, the flash card questions are the same in the book I bought called "Pass the NY notary public exam questions and answers." The only difference is the 84 multiple choice questions in the 225 Q&A book by the same author. It would be worth it if there was a special bundle price with a $5 discount or a price of $13 for both books instead of $18 for both books. I will be returning the Speed Study Guide book most likely and keeping the 225 Q&A book. The more Q&A the better.

Got the book and read thru it a few times. Passed on the first try less than a week later. The test seems to care way more about fees and payments than actual process or law.

I rarely leave reviews but I just had to leave one for this book. The instructions on how to use the book is very helpful. The information was straight to the point and as long as you can answer all of the multiple choice questions in the second half of the book you will pass. I passed on my first try! Great book!!

I found this book to be just what I needed to take the Notary Public exam. It has many and varied questions, together with the answers, so you don’t have to guess, you can study the right answer. I would definitely recommend this book, not just to people who want to take the exam, but to everyone, so they can learn the law and don’t have to speculate.

Perfect for my needs at the time I ordered. I highly recommend this book

I would recommend this book to anyone seeking to take the NYS Notary Public Exam because of the way it’s formatted. The book covers and highlights the main subject areas then asks questions to help you retain the same information. Well written.

Very helpful and easy to study from Passed the test first time
