Grade 5-9-This title is more complex than others typically found in the series. The front cover features a young teen bedecked from head to fingertips with beaded projects. What follows are ideas for crafters with excellent hand-eye coordination and manual dexterity, illustrated with black-and-white line drawings. Projects include fringed bobby pins, a seed-bead lattice ring, a lattice choker with dangles, hair sparklers, a butterfly hair dangler, crystal and pearl headbands, and other exotic offerings. A section on the popular power beads is also tucked in. There are lists linking colors and gems to moods and fortunes. The book also has clear sections on terminology, a discussion of clasps and knots, and lists of stringing supplies. Suggestions are given for storing caches of beads and for taking care of beading tools. This is not your standard "look around the house for supplies" book. It is for dedicated bead enthusiasts.Jennifer J. Gallant, formerly at Cleveland Public Library, OH Copyright 2001 Reed Business Information, Inc.

Purchased book for grandduaghter,9.looking at my beading books overwhelms her so she just walks away.Now she can see and understand pictures-instructions.Great book for little girls.Thumbs up.

I borrowed this book from the library and I already like it. There’s a ton of different styles,so that you’ll never get bored. For the most part the jewelry looks pretty easy to make. There are some harder things too though. The instrucions are easy to follow with black and white pictures to show you how different techniques are done.There’s a section in the back that tells you the basic beading tools and beads you need to have,what the tools are used for,techniques,and other helpful stuff. The jewelry is really cute and not old fashioned or anything. A lot of the stuff looks like something you’d buy at a store. I’d give this book 6 stars if I could! If you want to make jewelry I’d diffently buy this book!

Excellent book. My 12 year loved the book, easy instuctions.
