Synopsis

The skills required for top-notch canvaswork are astonishingly few, and canvas's potential to protect your boat and enhance your enjoyment of it is practically limitless. Here is all you need to tackle virtually any canvaswork project: sails and sailcovers, flags, dodgers, ditty bags, cushion covers, and awnings--including Biminis. It's clean, safe, and risk-free--and you'll save a bunch of money and get exactly what you want in the process.

The skills required for top-notch canvaswork are astonishingly few, and canvas's potential to protect your boat and enhance your enjoyment of it is practically limitless. Here is all you need to tackle virtually any canvaswork project: sails and sailcovers, flags, dodgers, ditty bags, cushion covers, and awnings - including Biminis. It's clean, safe, and risk-free - and you'll save a bunch of money and get exactly what you want in the process.

Don Casey credits the around-the-world voyage of Robin Lee Graham, featured in National Geographic in the late 1960s, with opening his eyes to the world beyond the shoreline. After graduation from the University of Texas he moved to south Florida, where he began to spend virtually all his leisure time messing about in boats. In 1983 he abandoned a career in banking to

devote more time to cruising and writing. His work combining these two passions soon began to appear in many popular sailing and boating magazines. In 1986 he co-authored Sensible Cruising: The Thoreau Approach, an immediate best-seller and the book responsible for pushing many would-be cruisers over the horizon. He is also author of This Old Boat, a universally praised guide that has led thousands of boatowners through the process of turning a rundown production boat into a first-class yacht, and of Sailboat Refinishing, Sailboat Hull & Deck Repair, Canvaswork & Sail Repair, and Inspecting the Aging Sailboat, all part of the International Marine Sailboat Library. He continues to evaluate old and new products and methods, often trying them on his own 30-year-old, much-modified, Allied Seawind. When not writing or off cruising, he can be found sailing on Florida's Biscayne Bay.

This is a good book that is writen in simple english..Easy to understand, easy to view pictures.. I have not made any of the projects in the book but I'm sure they will be easy to follow..

Canvaswork and Sail Repair, written by well-known expert Don Casey is a great book to start learn about sewing projects for your boat. He starts out by describing what to buy and what attributes to look for in such necessities as sewing machines and thread. He goes on to show you how to sew a lot of projects ranging from simple pockets to cushion covers and even tackling such projects as sail repair,

I own all of the books in the series. The only thing that bothers me is how smart Don Casey is. If you own any of his books, this one is the same but with canvas. There are projects from easy to more difficult (I'm a beginner) and a surprising number of them will be useful to most boaters/sailors.

very informative for the beginner like me.

This is a really handy book that will save you a lot of money. The work isn't difficult, you just have to remember that your are dealing with large pieces of fabric and not just sewing on a button.

This is an excellent book for those just learning or needing a refresher on canvaswork and sail repair projects. I keep it on hand as a reference guide for myself when I am working on these sorts of projects.

quick shipping, As with his other DIY books, good photos, clear explanations, a valued edition to my nautical library.l

Will defer additional comments until I try out some of the approaches to tasks Casey explains.
