Gilbert Hernandez lives in Las Vegas, NV, with his wife and daughter. He is co-creator of the long-running, award-winning, and critically acclaimed series Love and Rockets.Jaime Hernandez is an internationally acclaimed, award-winning cartoonist and a lifelong Los Angelean.

Typically for the Hernandez Bros, it’s an excellent book. The ’Princess Anima’ story was terrific, riding a borderline between extreme screwiness and good SF adventure.The ’Fritz’ story, I must admit, confused me. Maybe this is sad reflection on my IQ but I’ve often had a tough time following Gilbert’s (whose story this is) long and complex tales. I had a very tough time with his "Poison River". It was easier to understand when all of it was collected in one volume, and I’m sure that will be true for this Fritz story. I’m looking forward to reading the tale when it’s in one volume.Jaime’s telling of Maggie’s punk reunion was good. I’ve been reading about Maggie and her friends since the mid-’80s. I’ve read all the stories. I remember when Maggie and Hope were feeling the joy of their youth. The power of the punk rock they loved helped fuel their headiness. To me this reunion is a big deal. In the time between back then and now, there has been a fair amount of pain in their lives. This reunion story involves both happiness and sadness. Fortunately, the accent is on the happiness.

The great stories and art continue. Long live Los Bros Hernandez!

Good read for those you love the series and know what’s going on.
