Joseph E Pizzorno Jnr is a Past President and founder of Bastyr University, Seattle, and a member of the Seattle/King County Board of Health.Michael Murray is a faculty member of Bastyr University, the medical editor of the Natural Medicine Journal, and a leading educator in naturopathic medicine.Herb Joiner-Bey is a naturopathic physician, lecturer and author. --This text refers to an out of print or unavailable edition of this title.

I gave this five stars due to its usefulness in student clinic. I use the kindle version and it works very nicely on all my devices. I particularly like the treatment algorithms. It does an excellent job of walking you through everything and includes various treatment options. Well referenced. I actually would recommend this one over the often recommended Textbook of natural medicine. I would recommend getting Clinical Naturopathic Medicine with this textbook for a quick reference and in depth combo. Combine those two with the 5 minute clinical consult for your allopathic overview and you will be set nicely.

I got the 2nd edition instead of the 4th edition because it seems to have thicker pages and the font is large enough to read. I am very pleased with it. I have been reading the book non-stop since I got it. It is much more detailed and informative than the other books I have looked at. It is a great purchase for my medical library.

Useful, very easy to find information. A good book to have on hand.

I needed this book for a nutrition class where we are working on case studies. This book has been a priceless resource! Info is laid out in an easy to understand format. I’ve even used it to look up family members health issues and have come up with some useful tips for them.

My only real complaint is that there aren’t more conditions covered. For all of the conditions included in this handbook I find it to be a great reference to see multiple natural therapies including diet, lifestyle, nutrition, and herbs.

Great book. A must have for anyone interested or working in alternative or complimentary therapies

The companion for the text book of natural medicine, I have it with me most of the time, a must for

all practitioners and students of natural medicine

An excellent reference with concise yet detailed information. A must for every health practitioner's bookshelf! Thank you Dr. Pizzorno!
