Synopsis

The Georgia Guidestones are a collection of standing stones near Elberton, Georgia. Built in 1980, they are primarily composed of six slabs of granite: one central pillar, four "major" stones that fan out from the center, and a capstone. The capstone has engravings on all four of its sides in four different ancient languages, all of which read, "Let these be guidestones to an Age of Reason," when translated. The major stones are each engraved on both sides, and each side contains text in one of eight modern languages asserting the same ten guidelines.Those guidelines have proven extremely controversial, causing speculation and rumors of conspiracy that go far beyond northeast Georgia. Conspiracy theorists surmise a global plot on the part of a group of shadowy men to subjugate and oppress the world’s population and create a "new world order." Others believe that the man behind the monument was a Rosicrucian, and that the stones are representative of that group’s magical manifesto. Some people even believe that it is a landing site for an alien spacecraft of some kind. At the heart of this confusion is the missing piece of the puzzle: who was the mystery man who started the entire chain of events?

Bought as a gift for my mother, she absolutely loved it.

This book will tell you why the Stones were made, along with the conspiracy theories.

As other reviewers have noted, Wiley and Prime do an excellent job sticking to the facts. Without offering any theories or conjecture, the authors explain everything that is known about this mysterious monument.

A profound story about these mysterious stones, leaves open for speculations of their meanings. They are on my list of places to view before death takes me.

My husband loves it!! He has wanted to get more knowledge about these stones and was so excited that I was able to get this addition to his materials.

If anyone is looking into the whole new world order agenda this is a good book to add to the collection

came on time for a birthday gift they loved it

Good facts well presented in an interesting story.
