Customer Reviews

Though targeted at 7-12 year-olds, the Choose books should appeal to kids of all ages. But not just because adults are hoping to ride rocket ships down memory lane. The Web has taught us to appreciate nonlinear narratives, and Montgomery’s series employs game theory to keep readers

interested. --Wired Magazine

R. A. MONTGOMERY attended Hopkins Grammar School, Williston-Northampton School and Williams College where he graduated in 1958. He pursued graduate studies in Religion and Economics at Yale and NYU. Montgomery was an adventurer all his life, climbing mountains in the Himalaya, skiing throughout Europe and scuba-diving wherever he could. His interested included education, macro-economics, geo-politics, mythology, history, mystery novels and music. He wrote his first interactive book, Journey Under the Sea, in 1976 and published it under the series name The Adventures of You. A few years later Bantam Books bought this book and gave Montgomery a contract for five more, to inaugurate their new children s publishing division. Bantam renamed the series Choose Your Own Adventure and a publishing phenomenon was born. The series has sold more than 260 million copies in over 40 languages. He was married to the writer Shannon Gilligan. Montgomery died in November 2014, only two months after his last book was published.

As advertised, great product, would buy again.

My 3rd grader enjoys these books occasionally, they’re a little young for him (he prefers longer more complex stories like the Eragon trilogy), but he likes them when he’s relaxing sometimes. I really just wanted to put out there that reading the kindle version of this book on an iPod touch or iPhone is fabulous, because of the touch-screen capability and hypertext links to the chosen section at each point where you make a decision.I’d also like to point out to the powers that be that the sample is stupid and idiotic. If the sample is ONLY going to include the title page and the "about the author" page, don’t even have a sample, because it is just an annoying waste of time!

These books are great for finishing up the ending of the story.

My grandson really enjoyed these books.

I grew up enjoying these books, now my nephew is enjoying them. Too bad they quit publishing this line of books, they were worth reading and re-reading since you decided the story line by making decisions along the way. I highly recommend these books.

my son loves these books! he likes that you can choose how the story ends and then read it again

and choose a different ending. nice to have a book that can be read more than once and still be fun.

My 7 yr old son loves this book. We takes turns reading it and he gets excited/scared to see where his decision has taken him. Great for the imagination!

Definitely takes me back to my childhood. Easy to follow story lines. Fun to read over and over. Will continue to read others like this.
