Gr 4-6From the sudden shaking of the stands in Candlestick Park, where fans awaited the start of game three of the 1989 World Series, to the lengthy efforts to locate and rescue survivors trapped in buildings and on Interstate Highway 880, this volume presents a clear overview of the earthquake and its aftermath. Dramatic color photographs, including the collapsed section of the Bay Bridge, a bulldozer demolishing a severely damaged apartment building, and an abandoned teddy bear sitting amid rubble, emphasize its severity. Simple explanations of the San Andreas fault, the Richter scale, scientific progress in earthquake prediction, and the difficulties experienced by agencies attempting to provide shelter and transportation for the suddenly homeless add to the books value.Ginny Gustin, Santa Monica Public Library, CA Copyright 1999 Cahners Business Information, Inc.

In 1984, on Wednesday April 18th while I was driving from Modesto to go to work in Turlock, California,the Lord predicted that there would be an earthquake on Tuesday.This prophecy was given to the congregation of the Good News Baptist Church during our Passover celebration, while I was serving as Pastor there. It came to pass just as the Lord had predicted. He also predicted that night, that there would be an earthquake on Tuesday, and many people would die. The Loma Preita Earthquake was that second predicted earthquake. It happened October 17th on Tuesday, in 1989.GOD KNOWS WHEN THESE EARTHQUAKES WILL HAPPEN. and sometimes the will let us know in advance that they are coming.All of this is recorded in the book "WHO IS GOD, AND WHAT HAS HE EVER DONE FOR US?" written by me: David L.Jemison.
