I found this book several years ago when I started teaching a student who’d switched from percussion, of all things! It was a learning experience for both of use as I was constantly thinking things like "Oh...that’s right...you don’t know how to breathe/tongue/finger/etc". We’d been working out of the Rubank and she was struggling with the notes from half-hole G and up. At our annual music conference I found this book...when I saw that it didn’t introduce the middle A until well into the book I grabbed it. It was perfect for her and she progressed quickly in large part due to the fact that her confidence went through the roof! Since then it’s been my "go-to" beginner book regardless of what the student played before!

as expected. good basic book

I will recommend it to my friend. have a good experience. the speed is so amazing it is a very useful

tool, Very sharp and strong product. It was my first kind of cutting product for food and I am very impressed. I've had it for a few months now and its sharpness is still the best of all the knives I have.
