Customer Reviews

Years of fascination await curious children! As expected, the illustration are outstanding! Many interesting topics, revealing facts even adults did not know! We’re delighted with this! Both our grandchildren, ages 7 & 10, spend hours with this book. Highly recommended!

We have an 11 year old boy who loves this book. Very informative with great pictures.

My 7-year-old grandson became interested in World War 2 after having seen the movie about Jesse Owens. He began asking lots of questions, so I bought him this book. Great organization, photos, and explanations about various personalities and events. He's now become interested in maybe being a History teacher when he grows up.

My grandson (10 years old) is very interested i WW2 - this was perfect for him.

I ordered this for my little brother, who is fascinated with the WW2 Era in history. Thanks to prime shipping it came in two days, and he couldn't contain his excitement! The pictures and details in the book go above and the beyond the other DK books I've read as a kid. I would buy this for any little historian in the family, or for anyone liking history in general! If you found this helpful, please rate it as such!

9 year old loves it!

My 11 year old loves history and saw this book at a school book fair. I got it for half the price on and he loves it.

My 7-year old is a World War II buff so we have read a fair number of books on the subject. This encyclopedia is now a favorite! It has a wealth of information, includes nice illustrations and photos, and has an solid organization that quickly allows my boy to find information he needs.
