Vistas, 4th Ed, Student Edition with Supersite Plus Code

This was very frustrating. The book is very vague and does not give enough examples on how to form sentences. The online lessons are also very vague. They need to give more demonstrations and examples. I would suggest go with a different book. Impossible to learn Spanish with this. It was a mandatory purchase for school. Class lecture taught more than the book. They have exercises in the book but no where to check your answers.

I love this book! The cheapest hardcover edition I could get from . I was excited to open the package and I was not disappointed. I got my money's worth.

Very good book

Not only did I receive the book and code a few days after purchasing it but was exactly what I wanted and it worked great!

The books seems to be at a great price however, the codes are not valid!! The book comes with a

code that has already been used. Do not rent from this place. You will have to still spend $90 for a code

Sure, you get the book...but if you need the access code...it doesn't work because its used. This shouldn't be up for rent if advertising an access code that is expired -_- Now I have to go find one and I'm having trouble doing so!

Good quality! Fast Shipping! Right on time for me to use with my class. I greatly appreciate it!

Good Condition.
