Caroline Myss is a pioneer in the field of energy medicine and human consciousness. Since 1982, she has worked as a medical intuitive: one who "sees" illnesses in a patient’s body by intuitive means. She specializes in assisting people in understanding the emotional, psychological, and physical reasons why their bodies have developed an illness.

I have been a fan of hers - she says everything so well

I think Caroline Myss is a fantastic person and writer. But trying to find my "sacred contract" has been a bust. She tells us in this book that we all came on earth to accomplish a "sacred contract." And that may be true for her but I have yet to find mine and now that I am 84 years old, it is too late.

I ordered this audio book because it was referred to me by a classmate. I was not impressed by the presentation. A little bit too uppity for me. I did not finish listening because it was not interesting enough; I had to push myself to go through the most of it. Just my opinion, others may, love it.

interesting, but complicated & time consuming. This is thinking in another hemisphere, not as easy as my chiropractor said it would be.

With a demanding work schedule and long distances from work, I have turned my car into a classroom. The CDs from Caroline Myss are easy to listen to over and over again. Each time I listen to Finding Your Sacred Contract I learn something new that I can immediately apply to my life. It is great exercise for the brain!

Carolyn Myss has great topics and suggestions on who are presently in our lives. I have met her in person and love what she has to say about our minds and thoughts effect our physical being. Thanks for expediating the tape.

If you feel that you were sent to this world to accomplish a task that only you could complete,and that your life indeed has purpose that could benefit the entire world you will find this tape very interesting. Life is wonderful but along with enjoyment we have work to complete, certain people to meet and a contract to complete. One sentence that you may say to an individual could be the main purpose of your life. And...that sentence could be as simple as saying "You are important". And...You may never realize that your sentence was the most important statement in your life. This tape will help you understand the Real reason that you are on this journey that we call life.

I have listened to most of the Myss CDs and read all of her books. I found her attitude on this set of CDs at times off-putting. Myss is always opinionated and self-assured; in this CD she at times borders on bigotry about the practices/beliefs of others (and I say this even as I can sympathize with her lack of patience) and she definitely crosses over to obnoxiously cocky. I like my seekers to be still seeking, not know-it-alls.Still, I give this set three stars because the new insights I got were

worth it, in the end.
