Customer Reviews

These books are a cry of relief from the five minute books we usually read with our son and they

have already taught him so much about science, nature, and particularly history. Jack and Annie, the lead characters in the series, travel through time and meet with prominent historical figures such as Equipment Queens, take a trip to the moon, spend a day with Abraham Lincoln, land in camp with General George Washington as he is ready to cross the Delaware, and even convince a young Mozart to continue his pursuit in music.They are well written books that peak interest in subjects young kids may not yet have access to and have accompanying research guides that give detailed back stories and historical guides to the subjects covered in the novels. Although the intended audience of the series seem to be for children around 8 - 10, our five year old becomes engulfed in the stories every single evening, always looking forward to what adventure Jack and Annie are heading for next. also tend to have a wider availability of the series than book stores like Barnes and Nobel at prices up to half the cost of the same.

Our grandson who is 8 years old started reading Magic Tree House books when we gave him the first set for Christmas 2012 and has visited the library reading other series. On a trip with him we purchased the Kindle version of #17 and #19 that he had not read and so he could entertain himself while traveling. He is hooked on Magic Tree House books!

Arrived brand new and as expected.

We really enjoy all of the books in the Magic Tree house series, but this was one of the best books in a long time. We have read all 18 books in the series, that proceed this one. We COMPLETELY and highly recommend this entire series... however if you don’t read all the other books, you must read the First 4 books in the series, and this one. Now, my daughter and I are off to join Jack and Annie in Dingos at Dinnertime!

Love these Magic Tree books for my 8 yr old. He can read them easily and they have nice imaginative adventures. Not, spooky, grey, or too magical. I get them in English and Spanish, which is great! Not too many options for Spanish books, which I need, as my kids are in Dual Immersion Spanish program.

This very affordable book gave my son and I hours of "nightime reading" we both enjoyed. Great price, extremely great product, and quick delivery made this series of books a great deal. Thanks, Tim C.

I love it. It is totally awesome because I like tigers and tigers are my favorite animal. Other kids should read it. I like the monkeys because they are cute and soft and funny. It was kind of sad when the tiger got trapped. But it turned out okay because Jack and Annie freed the tiger.

Tigers at Twilight is a very informative and educational book. It has good plot points! I recommend this book too young elementary students:66576
