Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

The cd I received is labeled as the one which goes with the book but when I played it in my computer it was Renaissance music performed by the Canadian Brass. Which sounds wonderful. Only thing is that having the sample tracks and accompaniment tracks to play along with was one of the bigger selling points for me. For my own sight reading and for my students who are in the beginning of their soloist careers.I would like to know how to fix this issue.

This book has great solos for the avid tuba player. From "The Wayfaring Stranger" to "Lento" this book includes over 12 solos.
