## Synopsis

NOTE: You are purchasing a standalone product; MasteringA&P does not come packaged with this content. If you would like to purchase both the physical text and MasteringA&P search for ISBN-10:Ã Â Ã Â 0133893383 /ISBN-13: 9780133893380 . That package includes ISBN-10:Ã Â 0133925595 /ISBN-13:Ã Â 9780133925593 and ISBN-10: 0133999300 /ISBN-13:Ã Â 9780133999303. For the two-semester A&P laboratory course. Ã Â All instructor resources for this title are available in the Instructor Resources section on the MasteringA&P site. Ã Â Helping millions of future healthcare professionals prepare for lab and practice lab concepts. Revered for its thorough, clearly written exercises and explanations, Human Anatomy & Physiology Laboratory Manual has provided millions of future healthcare professionals with a complete hands-on laboratory and learning experience. The fully revised Twelfth Edition provides a more active, workbook-style approach that incorporates visual summaries, streamlines information, and engages students with hands-on drawing and review activities. New features include assignable Pre-lab Videos that introduce students to the lab and related equipment, and Ã¢â ¬Å“Why this Matters,Ã¢â ¬Â• which shows the relevance of lab activities to real-life and clinical examples. This edition is fully integrated with MasteringA&P, offering assignable visual media and activities that promote active learning and engage students. Ã Â Ã Â For the first time, the lab manual is publishing alongside Marieb/HoehnÃ¢â ¬â„¢s best-selling Human Anatomy & Physiology . Designed to meet the needs of the 2-semester A&P laboratory course, the manual can be used with any A&PÃ Â textbook and is available in a customized edition, as well as inÃ Â three conventional versions:Ã Â Main (Eleventh Edition), Cat (Twelfth Edition), and Fetal Pig (Twelfth Edition). Ã Â Also Available with MasteringA&P Ã Â® This title is also available with MasteringA&P Ã¢â ¬â • an online homework, tutorial, and assessment program designed to work with this text toengage students and improve results. Within its structured environment, students practice what they learn, test their understanding, andpursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Students, if interested in purchasing this title with MasteringA&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

## Book Information

Series: Marieb & Hoehn Human Anatomy & Physiology Lab Manuals

Spiral-bound: 992 pages

Publisher: Pearson; 12 edition (January 22, 2015)

Language: English

ISBN-10: 0133925595

ISBN-13: 978-0133925593

Product Dimensions: 9.4 x 1.2 x 10.9 inches

Shipping Weight: 3.9 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 stars 28 customer reviews

Best Sellers Rank: #4,737 in Books (See Top 100 in Books) #24 inÃ Â Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Physiology #29 inÃ Â Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Anatomy & Physiology #30 inÃ Â Books > Medical Books > Basic Sciences > Physiology

## Customer Reviews

For Elaine N. Marieb, taking the studentÃ¢â ¬â„¢s perspective into account has always been an integral part of her teaching style. Dr. Marieb began her teaching career at Springfield College, where she taught anatomy and physiology to physical education majors. She then joined the faculty of the Biological Science Division of Holyoke Community College in 1969 after receiving her Ph.D. in zoology from the University of Massachusetts at Amherst. While teaching at Holyoke Community College, where many of her students were pursuing nursing degrees, she developed a desire to better understand the relationship between the scientific study of the human body and the clinical aspects of the nursing practice. To that end, while continuing to teach full time, Dr. Marieb pursued her nursing education, which culminated in a Master of Science degree with a clinical specialization in gerontology from the University of Massachusetts. It is this experience that has informed the development of the unique perspective and accessibility for which her publications are known.Ã Â Dr. Marieb has partnered with Benjamin Cummings for over 30 years. Her first work was Human Anatomy & Physiology Laboratory Manual (Cat Version), which came out in 1981. In the years since, several other lab manual versions and study guides, as well as the softcover Essentials of Human Anatomy & Physiology textbook, have hit the campus bookstores. This textbook, now in its Ninth edition, made its appearance in 1989 and is the latest expression of her commitment to the needs of students studying human anatomy and physiology.Ã Â Dr. Marieb has given generously to provide opportunities for students to further their education. She contributes to the New Directions, New Careers Program at Holyoke Community College by funding a staffed drop-in center and by providing several full-tuition scholarships each year for women who are returning to college after a hiatus or attending college for the first time and who would be unable to continue their studies

without financial support. She funds the E. N. Marieb Science Research Awards at Mount Holyoke College, which promotes research by undergraduate science majors, and has underwritten renovation and updating of one of the biology labs in Clapp Laboratory at that college. Dr. Marieb also contributes to the University of Massachusetts at Amherst where she generously provided funding for reconstruction and instrumentation of a cutting-edge cytology research laboratory. Recognizing the severe national shortage of nursing faculty, she underwrites the Nursing Scholars of the Future Grant Program at the university.Ã Â In 1994, Dr. Marieb received the Benefactor Award from the National Council for Resource Development, American Association of Community Colleges, which recognizes her ongoing sponsorship of student scholarships, faculty teaching awards, and other academic contributions to Holyoke Community College. In May 2000, the science building at Holyoke Community College was named in her honor.Ã Â In January 2012, Florida Gulf Coast University named a new health professions facility Ã¢â ¬Å“Dr. Elaine Nicpon Marieb Hall.Ã¢â ¬Â• With the help of Dr. MariebÃ¢â ¬â„¢s generous donation, this facility contains laboratories in the School of Nursing that simulate an operating room, intensive-care unit, a labor and delivery room, and general medical surgical suites. She has also established a scholarship endowment for non-traditional students in the health professions, and an endowment to enhance the activities of faculty, students, and staff within health professions to support education, research, and community outreach.Ã Â Dr. Marieb is an active member of the Human Anatomy and Physiology Society (HAPS) and the American Association for the Advancement of Science (AAAS). Additionally, while actively engaged as an author, Dr. Marieb serves as a consultant for the Benjamin Cummings Interactive PhysiologyÃ Â® CD-ROM series.Ã Â When not involved in academic pursuits, Dr. Marieb is a world traveler and has vowed to visit every country on this planet. Shorter term, she serves on the scholarship committee of the WomenÃ¢â ¬â„¢s Resources Center and on the board of directors of several charitable institutions in Sarasota County. She is an enthusiastic supporter of the local arts and enjoys a competitive match of doubles tennis.Ã Â Lori A. Smith received her Ph.D. in Biochemistry from the University of California at Davis. Before discovering her passion for teaching, she worked as a research scientist and project leader in the medical diagnostics industry. In 1999, she joined the faculty at American River College in the Biology Department.Ã Â Currently she teaches anatomy and physiology and microbiology to pre-nursing and mortuary science students at American River College. Starting in 2005, she began co-authoring PearsonÃ¢â ¬â„¢s PhysioEx: Laboratory Simulations in Physiology and has continued to co-author several versions of the software and lab manual. Dr. Smith has been awarded Ã¢â ¬Å“Instructor of the YearÃ¢â ¬Â• by the American River College Associated Students for her

commitment to serving students, and she is a member of the Human Anatomy and Physiology Society (HAPS) and the National Association of Biology Teachers (NABT).

The text was labeled as good. It was at most fair, but moreso, poor condition. The pages were mangled at the edges and very difficult to turn/flip. I couldn't return the book b/c I urgently needed for my class. Otherwise, I wouldn't have kept such a bad copy.

I bought used lab manual. there is a lot of spills on the book and too many highlights. if I had a time, I would return it.

There are pages that have been ripped completely out then taped back in. There are also writing all in the book, some erased (but still very legible) and some with pen.

We bought this book for my fiances college class. The book was delivered on time and it was exactly what she needed.

We barely used the book for class but I was able to rent it for summer 1 & 2, with no issues. It serves it's purpose.

Book was in great condition,

Thanks

The book came in perfect condition, really helpful for anatomy lab and for a great price!
