Synopsis

Having difficulty figuring out what the runes are trying to tell you? The Book of Rune Secrets is a contemporary vision of the Elder Futhark runes, destined to become an essential part of any rune library. Share in an inspiring vision of our place in the cosmos and harness the power of the runes as never before. With astonishing clarity, this volume builds on the ideas of teachers such as Freya Aswynn, Edred Thorsson and Diana L. Paxson, but departs from old thinking and dares to explore the future of the runes themselves!

I was expecting there to be much more in this than there was, so I am a bit disappointed. I would say go to his website. It definitely helped me understand the runes much better than any of the other sources that I had observed from the internet... about 50 some odd sources if I had to round.

I am no master in runes and only dabble in them. They are a great part of a spiritual path. I have followed tyriel on his website runesecrets and he has a great community of people that talk about runes and what they are and mean. this is a great book that goes deeper than just a short explanation of what each rune means. (i do think that the book is over priced for what you get and wished i had waited for the kindle version)

Was a very small book with no girth. Not worth the money. I was disappointed. I have no problem

paying 30 something dollars for a book if it is good and filled with information. This is just a disappointment. However, I encourage you to get it and see for yourself. You may find that there is something that rings true...for me it did not work. Use your own discernment.

Received this book today. Very disappointed in the sized of the book. For the price of $30 I expected it to be a lot thicker & full of information.It was recommended for an upcoming class that a friend is teaching. I have yet to review the information or visit the author's website till I take the class on runes.

The Book of Rune Secrets is the most refreshing look at the runes of the Elder Furthark in 20 years of studying Northern mythologies. Tyriel's perspective eloquently captures ideas I have struggled to express about how the runes relate to our 21st century lives. There are many good books available that look at mundane and esoteric concepts associated with each rune stave and their use in divination. Tyriel is concerned with the energies and principles at the core of each symbol and how these can be understood in the context of scientific knowledge and personal growth. The book is thought provoking for the experienced runester and at the same time an accessible starting place for a newcomer to gain a sound foundational knowledge - and that is a true magical achievement! I am now reading this book for the second time and cannot say enough good things about it.

Well worth the Read, highly recommended!!

This is a good book, however it is a little over priced for a paper back.

A great resource for interpreting the runes you pull when you want to know what they say for you. I have added this to my Ralph Blum books and get even clearer interpretations by the combinations.
