Customer Reviews

The content is great and updated. I think this is the best questions book review for neurology board exam on the market right now. My complain is that this new edition the designer of the book choosed very light ink for writing and my eyes are getting tired with this light blue on white. The same think with doing questions on line on the ebook. The ink is very light on the white page and the eyes are getting tired. Maybe the editor can change at least on the website the ebook ink colors.

Advantage of getting online access to the same questions as well. Don’t have to haul the text to electives for quick learning.

The questions are great, the interactive quizzes on your iPhone or iPad or online are useful, and the best part is that the answers and explanations are meaningful and educational.

Digital version is a bit cumbersome, I would buy the paper back.
