Synopsis

Law students need to know essential business concepts for such courses as business associations, securities regulations, corporate finance, taxation, banking law, financial regulation, and business planning. But most law students have never had formal coursework in accounting or finance. This book serves this pressing need, covering essential concepts in accounting, finance, and financial markets. (Rhee is targeted as a primary or secondary adoptable for courses in business associations, securities regulations, corporate finance, taxation, banking law, financial regulation, and business planning.)Features:Mirrors textbooks used at business schoolsConnects the unfamiliar (business concepts) with the familiar (case law) Use of numerous graphical elementsEngaging hypotheticalsCompletely up-to-date, with material on important, recent events such as the financial crisis of 2008-2009, the collapse of investment banks, the Bernie Madoff fraud case, and EnronCan be used as a required or recommended supplement in doctrinal business law courses such as business associations, securities regulations, corporate finance, taxation, banking law, financial regulation, and business planning

Customer Reviews

Good for foundation in business law. Very well written and easy to understand.

This book is written for law students and lawyers who lack formal training in business, accounting, and finance. Business principles are complicated, full of jargon, and not intuitive. This book breaks

down the core concepts and explains them clearly and simply. It's not like regular law books. It uses lots of pictures, diagrams, and visual aids to assist in the learning. I highly recommend the book.
