Founded in 1977 in Munich, Nelles Verlag publishes folded road and travel maps in color. Nelles uses special, easy-to-fold paper that allows thousands of refoldings without fraying. Nelles maps are highly readable, detailed relief maps with major roads and point-to-point distances clearly indicated. The maps include highly useful legends; city maps show tourist features such as hotels. --This text refers to an alternate Map edition.

Not the best map. The title says Kalimantan, but it has detailed city maps for the Malayasian (non-Kalimantan) side of the island of Borneo, and none for the cities in Kalimantan. The detail is okay. Useful for general itinerary building, but I wouldn’t expect to navigate with it.
