Customer Reviews

The book is great but It does not contain any links to audio lectures and reading passages even though they are mentioned there. I have eBook. Unfortunately does not sell real book!How can I get access to the links? I am very disappointed!

This is the best. This is the secret most students want to know. But there is problems. It is difficult to find this way in other places or books. That's why you have to invest and buy this book. I can not express well about this book with earthly word... Personally, I think that toefl ibt test is a really amazing test which focuses on an ability to succeed in american university and the author knows about that and deals with that.
