Synopsis

This book will launch you into ski adventures in exotic far-away places. If you donÃ¢â ¬â„¢t do such adventure travel, you can at least share my adventures. While these took place back in the 1960s when overseas travel generally required greater effort than now, and there were fewer distractions ranging from electronic media to terrorism, the basics were the same. The mountains and glorious skiing are still there. If you are interested in visiting any of the places in this book, you should gain some insights from my experiences which will help you plan your trips.
