Synopsis

Ã¢â ¬Ëœ Think like a nurseÃ¢â ¬â„¢ with the 2nd Edition of this AJN Book-of-the-Year Award winner. It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in todayÃ¢â ¬â„¢s maternity/pediatric courses. And, itÃ¢â ¬â„¢s accompanied byThe WomenÃ¢â ¬â„¢s Health Companion, a complete guide to the role of the nurse in promoting womenÃ¢â ¬â„¢s health.A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.DonÃ¢â ¬â„¢t miss the Plus Code, inside new, printed texts. It unlocks the resources online at DavisPlus, including Davis Digital Version, your complete text online, and an Electronic Study Guide with learning tools and clinical resources.Click here to see an overview of everything this resource has to offer.Ã Â What instructors are saying...Ã¢â ¬Å“Well written, eye-catching and well organized chaptersÃ¢â ¬Â•- Sami Rahman, MEd, MSN, RNBlinn College"Clear, concise, uses tables and figures to support important concepts and content.Ã¢â ¬Â•- Darlene A. Ardary, PhD, RN, CPN, CSNLock Haven UniversityÃ¢â ¬Å“It is thorough on content and it contains many student tools like charts, tables and concept maps.Ã¢â ¬Â•- Carmen Torres MSN, MHS, RN, CNEBergen Community CollegeÃ¢â ¬Å“I like the different aspects that are included that get the students engaged in learning. It is a comprehensive text to use when teaching Maternal child nursing. It is simple enough for all students but engaging enough to keep even your most adept student challenged.Ã¢â ¬Â•- Teresa Carnevale, PhD, MSN, RNBeaver College of Health SciencesÃ¢â ¬Å“A complete continuum of the child from preconception through adolescents. All inclusive in a easy to read and understandable format.Ã¢â ¬Â•- Stephanie Palmersheim MSN, RNSt. LukeÃ¢â ¬â„¢s CollegeSioux City, IowaÃ¢â ¬Å“Good flow with information and material from Care of Maternal Health Nursing to Care of Pediatric Nursing."- Lisa Stoddart, MSN, RN, FNP-BCAssociate Nursing Professor PediatricsSan Joaquin Delta CollegeÃ Â Awarded third place in the 2015 AJN Book of the Year AwardÃ Â in the Maternal-Child Nursing/Childbirthing category

Customer Reviews

Only received one book

This is a POOR excuse for an edited TEXTBOOK!!. There was a time when I used to think that anything you see in print was so, or came close enough to be "so". Well not so with this "textbook"!! Spelling errors and CONTRADICTIONS up the WHAZOOO!! and many on the same page!! Even given the changing values such as what's normal lab values, and even with the understanding that there are small differences between texts, this book leaves a nursing student unsure of what to "take to the bank" . Long and short of it is that all semester long I've been reading this book and over time taking more and more of it with a grain of salt, which ultimately spells NO CONFIDENCE in this piece of work! (I'm so frustrated, but I'll keep my comments clean!) To the author, editor, and publishers : This book needs to go back to the drawing board, it is just not ready for primetime!

Book delivered on time. As described. Definitely not my favorite book though. Some things are very controversial and not straight forward in it. I can even say confusing, so after the first 2-3 lectures I relied on the power points that were provided for us.

The chapters are impossibly long and hard to get through for class.

I was expecting to get two books and I only got one. And it was the shorter book that is much less helpful to me than the actual textbook.

Used this book during my OB/Peds semester of nursing school, absolutely hated it... Says one thing

on one page and another on a different chapter. Poorly organized as well as spelling errors....

Not very organized and is hard to read and follow. Hard to find needed information from the text.

Was exactly what was needed.
