Oh! My goodness! Another HIT from Sigalit Eshet! I don’t know how she does it....every book by this author is a sure fire bet for clear instructions, beautiful photos and clear precise instruction. I love this book! Highly recommend!

would have liked more patterns but had a few I will use.

Really loved the patterns. Lots of useful tips also.

I always had a soft spot for Mosaic. It is such a beautiful art! This book gives so many great examples of how one can use this art to create household items (such as signs and tables). Three is also a very nice section about the methods and implements needed in order to make mosaic designs.

Another great mosaic book, and full of ideas, easy to follow patterns and written for mosaic lovers, this is my second book from this author, for any mosaic lover or for just love looking through a book with beautiful ideas I can recommend this great book.

Great inspiration for things to make with mosaicsYou can find many mosaic pictures on the net, but this book also gives you a pdf file with the original plan. Very useful!

Well explained and easy how to instructions. Love it!

Beautiful projects and Ideas! You can see that the author knows the mosaic work; it's in my plans to start one day. Meanwhile I'm collecting ideas...
