## Customer Reviews

Impulse buy as most endocrine issues are found by other specialists and not my strongest subject so has been useful but not something I use daily.

This is a great start-up resource book that I carried with me while doing my endocrine clinical. This book is loaded with good and useful information that can be serve as quick reference. Please note that this is a pocketbook therefore the font will be small. I tried to read the book but end up with sore eyes. Then I decided to use other textbooks/ online resources to supplement the material.

Very pleased!

Very concise and easy to read. I recommend it.

Great concise reference for the practitioner during the daily work. I love Tarascon Books! Same size as the pharmacopoeia and the Critical Care book, but with more pages.
