Synopsis

Patrick didn’t have the best draw in the superpower lottery, but when a maniacal super villain makes his move to take over the city, he finds himself teaming up with a group of misfits to help stop the madman’s plot, and is thrust into the role of a superhero.The heroes must learn to trust each other and work together to face the army of super villains and henchmen. In order to come out on top, Patrick has to dig deep and unleash everything he’s got.Two Percent Power.Ã¢Ëœâ |Ã¢Ëœâ |Ã¢Ëœâ |Ã¢Ëœâ |Ã¢Ëœâ | "Simply Fantastic! I thoroughly enjoyed this novel despite some pretty serious reservations at first. (Really, he controls Milk?) Nevertheless, the author crafted a tight narrative peopled by compelling characters and situations. I’m a firm believer and look forward to the second volume. Milk does a body good, and apparently it makes for a pretty cool and unique superhero as well.Ã¢â ¬Â•A story for fans of comic books, and comic book movies alike. Tighten your capes, heroes, and buckle up for a wild ride!

Customer Reviews

It seems like it would be a ridiculous story, a hero with the ability to telekinetically manipulate milk,

some sort of parody story about how ridiculous superheroes are. But that's not the case at all. This is a very entertaining street-level hero book that nicely straddled the line between fun and realism when it comes to the powers and how they worked. Patrick and his friends get knocked around in their fights, but the damage is seldom lasting, and ultimately they get their happy ending, complete with the hint that there's more to it all. The heroes are nuanced. The villains are a bit more one-dimensional, because we seldom get a good focus on them, but we get the implication that most of them have a life outside of their villainy, and two of them are given sympathetic motives for their actions.I'm trying to think of something concrete to complain about to justify the four star rating, but I honestly can't think of anything. The book is solid. The editing was amazingly professional ÃƒÂ¢Ã â ¬Ã â • I don't think I spotted a single typo. The fight scenes actually felt fairly real despite the superpowers with moves being called out on occasion and realistic treatment of the difficulty of fighting mobs and the progressive damage one accrues even when winning. Really, the only things that jumped out at me was the lack of adults in the lives of any of these kids, and how the whole superpowers things is implied to be omnipresent, but also doesn't seem to have made much of an impact on the world.I'm keeping this author on my radar, hoping that the second book in the series is as good.

The most unique super hero inspired novel I've read in years. Cool cheeky characters wise cracking pun artists and sarcastic quips abound. Dialogue rings true to how me and my friends talk to each other as we poke fun and chuckle. Unique powers and motivations run rampant throughout. Very hard to put down, very. I spent many nights reading it long past my bed time with a constant grin at the banter peppered with chuckle and occasional belly laughs. A must read. This author is going places I truly believe that. Great read!

For a new author, up and coming in the Indie Industry I would say his writing is in the top 10% of what I have come across in my exploration of the e-book universe. I love the main character, he is incredibly well balanced, but all of the characters are portrayed fairly well. I greatly enjoyed this book and would definitely recommend it to anyone interested in low-powered, street level super hero stories. :)

I can't wait for the second book of the trilogy. Great story where I could visualize the action based on the writing. Action packed great humor, believable flawed super heroes

Interesting and different. Not traditional heroes, some real twists with some originality. Cannot wait for the next book. A good read!

I read a bunch of Indie superhero stuff, and I thought this one was pretty interesting. Due to the MC's quirky powers, I thought the whole thing was going to be a joke, but the author took it seriously while keeping it fun. I described it to a friend as the Squirrel Girl of the Indie Superhero universe, and I mean that in the best possible way.

I loved it! I can hardly wait for more of this amazing entertainment! I would really enjoy a movie made from this.

It was a decent book and kept my interest the whole way. The man characters are interesting though the combat is somewhat repetitive and I didn't feel that there were any epic wow moments. Overall I would recommend it as a fun light read that for the price on isn't bad at all.
