I'm a PA student, so it's nice to see a study guide written by PAs! But also, it's a great quick resource. This has saved me hours of study time!

This books helps a lot with refreshers and especially with the cardiovascular system.

Best supplemental book one could ask for to study for boards, being inclined as a visual learner, it's concise and abbreviates complicated info in a digestible manner.

A little pricey for what you get. Cute, but the same condensed material is in Pearl's at a lesser price.

Any PA student will know this book is awesome. And now I plan to continue using it as a PA-C!

good info but occasionally info blurred and difficult to read

Amazing product. This book really helps me remember concepts.
