Rusty does it again, another great set of Bigfoot tales to entertain, amuse and scare you. I now have 7 of his books and they are all fantastic! I won't spoil the fun, you will have to read them for yourselves, but it is definitely worth it! Rusty has a gift and no one can tell a story the way he can. His books should come with a warning label for a highly addictive habit! I have read them more than once and still enjoy them. A sample will whet your appetite for more. Take my word for it, just buy this book and start or continue your collection. His works are that entertaining. If you do get bit by the Rusty bug, check out his blog page and drop him a note. I received a warm response and some great news, A NEW BIGFOOT BOOK IS ON THE WAY! I can't wait! He enjoys hearing from fans. This is another great addition to my Rusty collection. He is my favorite authors.Update: Rusty is planning a Bigfoot hunt! Read all about it on Rusty's Bigfoot blog page. Another great book is coming!

This book is one of many by Rusty Wilson that I have purchased. As a fishing guide, he has collected a lot of stories regarding Bigfoot. Few authors can retain my interest as Mr. Wilson has. Before reading any of his work, I thought Oregon and Northern California were prime Bigfoot areas. I now see my home state of CO and locations in UT seem to be the new Bigfoot Turf. Even my current home of NM has a growing number. His stories range from those that might make you want to become a member of the Bigfoot Fan Club, to those that might make you rethink going out in the forest again. I have read everything Mr. Wilson has on s' site. This book is the latest, and I grabbed it as soon as I saw it. If nothing else, take a free sample and you will be hooked.

This is the best collection of Rusty Wilson's selected Bigfoot stories that I have read to date. They run the full spectrum of Bigfoot encounters, from pacific to eerie to mysterious to run-like-hell terrifying. If you want cryptozoological presentation, forget it. These stories from anonymous

witnesses are all about the shock and awe of meeting Uncle Hairy. The Gorilla Gulch and the lookout station tales are absolutely frightening, while the "rite of passage" story makes you wonder.

Great, some really scary stories, some stories that are not scary but nevertheless interesting real life experiences. I enjoyed this book so much. Great for fans of Sasquatch! I had a hard time answering the question "is there violence?". There isn't really, but definitely some stories with peril and hair-raising situations.

I always enjoy this series. The stories are always great and I am a Bigfoot enthusiast so these books are great.

Thanks, Rusty, for another great collection of Bigfoot tales! I loved them all. You make me feel like I'm right there, around the campfire with you, listening to these great stories. I can see the action unfolding in my mind's eye!

I have been reading most of Rusty Wilson's books. This one has a really nice balance of hard -to-believe with quite plausible events. The story with the disabled young woman is especially interesting. Whether you think Bigfoot is one giant hoax or not, you will enjoy the stories.

I have all of the books in this series. I would definitely recommend the book as well the entire series. I can't wait for the next book!
