Synopsis

My purpose in writing this book is to try and explain how simple it is to learn the art of palmistry. There are simple rules around reading palms and I hope to make this book manageable enough for you to begin to use immediately.There are superstitions around palmistry. I am ignoring these and focussing on the practical. The purpose of palmistry is to bring to the open some issues preventing fulfilment , and to present possibilities for the future.I have read professionally for five years and have studied the hand over the past ten.In this book I have brought together what I have learnt and combined it with the knowledge that I have gained from others in the field.Palmistry can be profitable. It can be fun. Mostly though , it is fascinating!I hope you enjoy this little book.Peter Glynn March 2017
