Synopsis

Ancient Kabbalistic mysticism and the search for meaning by looking to the stars are related in ways that may surprise readers. Kabbalah, in fact, offers arguably the oldest and wisest application of astronomy and astrology known to humankind. Kabbalistic Astrology is a tool for understanding one's individual nature at its deepest level and putting that knowledge to immediate use in the real world. A natural addition to BergÃ¢â ¬â„¢s many writings on spirituality, the book explains why destiny is not the same as predestination and shows that we have many possible futures and can become masters of our fate. Written in BergÃ¢â ¬â„¢s trademark clear, intelligible style, the book teaches how to discover challenges faced in previous incarnations and how to overcome them, as well as the secrets to finding the love, success, and spiritual fulfillment.

Great read for a layman/laywoman in the Kabbalah. It even moved me when I read about the genetic code of our souls, explained from a Kabbalistic point of view, since I always believed there is a cosmic link between our DNA and the astrological codes written in our birth chart. But if you want to learn Kabbalistic astrology, here you will only find references to the Sun signs and the Moon's nodes. Nevertheless, I recommend the book for a primary understanding of Kabbalah related to astrology.

Berg takes a very complex subject and writes in a clear & intelligible style that is entertaining for those who are searching for Light. Definitely presents Astrology in a different way while helping the

reader discover their correction, understand their predestination, and learning how to face previous incarnations. A must read for all Kabbalah students.

Excellent book. Have gotten so much out of it. Very direct and specific and integrates astrology and karma (tikkun).This book is for the person who wants to use this life to correct shortcomings in the past life.

My father was curious about this book and bought the hardcover version.He found it soooo amazingly accurate, including the "tikun" and who we were in our past life.He gave it to my aunt, because she’s into astrology as well,and he bought this paperback version.He likes it that much.

I liked it. But it left me wanting more, on the Kabbalistic perspective. Scratching the surface...

great service great book

As an astrology student, I was attracted to this book because it promised a breakthrough approach. What I found was a set of plain vanilla obvious comments. A real disapointment.

Many answers in this book that you won’t find anywhere else. Not the end-all, but nearly the best path to understanding creation and why we are here on this planet.
