Synopsis

I got my first model kit ever as a christmas gift when I was around 8. It was a 1/35 scale jeep like the one my grandpa use to drive. The look of sadness, deception and fear on my face as I opened the box only to find that I had to build every little tiny parts of the truck before painting it is something my folks talked about every christmas since then.But do not fear, as unlike 8 years old me, you now have a guide on what do do before ruining a perfectly good 1/35 jeep Ã¢â ¬â œ or whatever other model you have. Maybe youÃ¢â ¬â„¢re new to the whole model building scene. Maybe youÃ¢â ¬â„¢ve been doing it for some time, but youÃ¢â ¬â„¢re unhappy about the results youÃ¢â ¬â„¢re getting, or maybe, youÃ¢â ¬â„¢re always looking to learn and discover new techniques. Whatever your situation and skill level, you will find everything you need to know to take your models from the box and have them ready for painting.About the author: My name is Max Dubois, and I am a miniature enthusiast from Quebec, Canada. Over the past decade, IÃ¢â ¬â„¢ve worked as a freelance miniature painter, producing high quality armies and models. IÃ¢â ¬â„¢ve also contributed to multiple blogs and websites about miniature wargames and painting.
