Synopsis

Master the skills and concepts necessary to effectively perform efficient evaluations of children with Occupational Therapy Evaluation for Children: A Pocket Guide, 2nd Edition. Reflecting the latest AOTA standards, this pocket-sized guide is a quick,comprehensive reference you can use throughout your education and into practice. Providing an overview of theory as well as step-by-step coverage of techniques, the book includes clinical examples that illustrate the application of content, as well as client and family-centered practice; illustrations that demonstrate assessment techniques; and extensive tables that summarize key assessments, techniques, and actions. See how concepts apply to practice with real world clinical examples. Develop your skills and understanding with illustrations and photographs that demonstrate assessment techniques. Expand your knowledge with a wide range of additional assessments, including COPM, MOHO, Sensory Profile, and visual and hand assessments.Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Develop practical skills for the workplace with new coverage of specialty areas, such as autism, where OTs have expanded their roles; up-to-date coverage of interview skills; information on IDEIA; and more. Quickly access any assessment of interest using the table of assessments that appears at the beginning of the book. Access a wide range of useful tools, including in-book tables that capture information in an easy-to-read manner and online sample evaluation forms.

Customer Reviews

Fast shipping. Item as described. Thanks!

This is a great resource for OT students/practitioners. Clear, concise, straightforward information.

This book is very interesting and informative. It's easy to read and yet very detailed!

Exactly what I wanted and needed

This book had been a useful reference in OT . Originally Purchased as required text in grad school, I love its portability and reference charts.

It is a must have for those in pediatric practice or thinking about getting into it. Wonderful reference for those already in practice with children

Love it

Great book to have in a pediatric setting. I received this book soon than I expected.
