Bought for a music business class. Full of a lot of good information.

I just received this book today, and I haven’t been able to put it down. My brain is swelling with all of the amazing, and comprehensive information I’ve already taken in. My band is getting close to releasing our first album, and quite honestly, I wish I would have stumbled upon this book months ago so we’d have all of our "legal ducks in a row" before publishing. However, I’m still psyched to have it now. Great purchase!
