## Customer Reviews

I am so excited to have this book. I have silicone molds and want to make some bath bombs for presents. This book has recipes for them and more. I have made body butters with other recipes and now I can try out some new ones. Since I don’t have a few of the essential ingredients, I have to get to the store for some of the supplies but the book clearly outlines all that is necessary. There is also a section for homemade bath salts & body scrubs. I like to be able to make gifts from ingredients that I have around the house. Homemade gifts make a great statement of personally caring for other people and it’s economical, too..

Very helpful for the beginner in essential oil and bath products concoctions. Recommend.

Educational for ingredients what each is good for : ie antibacterial purposes.

I love bath bombs!I have bought some bath bombs before and they are wonderful, but then can be quite expensive.Now you can make your own by reading this book.You probably have most of the ingredients already, and if you don’t they are easy to find and are very affordable.I like how she shows us you can even use plastic Easter eggs as mold. I would have never though of that!You can add your favorite essential oils, herbs and flagrance to your bath bombs. You can tint it to make it pretty, too.You can even substitute lemon koolaid (in little envelops with no sugar) for citric acid.I am making tons of them so I can make some nice baskets as gifts.There are tons of recipes and easy to follow instructions in this book.Who knew it was so easy to make your own bath bombs!Nice craft project for the family, too.

I am a crafter from way back. Combines crafting and baking skills for those of us who love both. Clearly written instructions with tips for making beauty products with your own special touch.

I found this book to be very informative. I also has some great recipes as well. I would recommend this one for anyone wanting to learn how to make your own body products.

Good Read, very insightful

love this i use it daily for making bath bombs
