## Customer Reviews

I enjoyed this book very much. One of the biggest goals that we have in general as individuals is to focus on our careers. ItÃƒÂ¢Ã â ¬Ã â„¢s attainable to find a career we would like, but very hard to find the career we love and obtain it. Our jobs are many times, a part of our identities, so we need to find the right position that is the most compatible. I believe this book is filled with tips that will benefit the reader in the long run. My favorite section deals with the ten tips to get yourself prepared. The most important part about obtaining a job that we really want is making sure we even qualify in the first place. Having clarity is by far the best tip to have. Without it, you donÃƒÂ¢Ã â ¬Ã â„¢t know what youÃƒÂ¢Ã â ¬Ã â„¢re getting into and you need to recognize the situation at hand.

True lines from this book, "If you love what you do you never work a day in your life". Yes, everything to get into our dream job is explained in this book. Very little to nobody in this world is there to motivate us, at least in quitting our current job and getting into our dream job. I am viewing this book as a great motivator, mentor, you name it. It explains how to overcome even the smallest barrier that blocks us to get our desired job. Read the book, follow the steps and let your dream comes true.

As a young professional, I found this book to be quite helpful and insightful for anyone navigating the workforce or looking to land that dream job. How To Find Your Dream Job by Ian Todd, is well written and filled with helpful tips, strategies and career advice that is meant to motivate and lead potential and career minded individuals in the right direction.

To be honest, I donÃƒÂ¢Ã â ¬Ã â„¢t know how to get my dream job. Inspired by its title, I read this book. Surprisingly, I saw the road to my dream job right in front of my eyes, in the form of this book. Everything, from leaving my current job to get my dream job is explained step-by-step in this book. My next task is only to travel in the path created by this book. I am sure; anyone who follows this book will definitely get placed into their dream job within a month.

WOW.... Excellent book. This is very easy to read. Actually, Very helpful guide book. This book gave us a lot of insight into the current job market. Actually, It gives lot of advice for your dream job.The author has explain very clearly. So, finally, I like to say, Read the book, follow the steps and let your dream comes true.

This book gave me a lot of insight into the current job market. It has a lot of really helpful advice for the whole job hunting process (including a great section on interview techniques which I found particularly helpful!). Best of all, the advice is simple and straight to the point! Exactly what I needed to finally make a change in my life.

This book has been such a helpful guide! Highly recommend if you are on the hunt for your dream job!!

Experienced professionals might find this "so basic". Nevertheless, it’s clear and specific. Lack of

examples and very generic tips. Nice quotes!
