Customer Reviews

After a quick reread of Configured, I was quickly immersed into this ’high-tech’ novel. This is a fascinating read. Although I will need to reread it again to grasp a few things, I am left looking forward to the third book, hoping it’s not that far away. If you are looking for a good, clean, young adult series, this is a good, interesting one.

I love the story, avlyn is likeable but as a "strong" female lead, she’s missed the mark. I just keep

thinking how weak she is. The love triangle just isn't working for me. She's Soooo in love yet and in a new, exciting relationship and yet she likes someone else?I do like Aron and Meyers characters though.

If you thought the first book was good, you're going to love this one! We learn more about the world surrounding Elore and the people in it. More information is revealed about Avlyn's past, along with other major characters in the story. Who is good, who is bad, or does everyone exist in shades of gray? Read to find out!

Action packed, with lots of twists and turns, Immersed is the continuation of The Configured Trilogy. Excellent dystopian fiction. A must read for fans of Hunger Games and Divergent! Can't wait for book three!

Just as much of a page-turner as the first one! There were a few moments where I wished for a little more depth and subtlety, or had my suspension of disbelief challenged quite a bit ;), but those are quibbles. This is a great story in a great series and can't wait for the next one. A must-read for YA sci fi fans.

It's a fast paced story with a lot of great thought put into the story. Characters are well written. I'd recommend it.

I think the author could have done a lot more with the story line than she did - more build and back story.

This book, correction, this series so far, is riveting, exciting and explosive. Keeps the reader glued till the end.
