Age Range: 9 - 12 years

Grade Level: 3 - 5

Customer Reviews

"Deptford fans know just what to expect: overstuffed plots, dense with tragedy and treachery and true friendship, rife with occult allusions and an undercurrent of brooding menace. The heroes are stalwart and true; the villains sadistic 0103 --This text refers to an out of print or unavailable edition of this title.

Seymour Simon is a former teacher and the author of over two hundred science books for children. More than half of his books have been named Outstanding Science Trade Books for Children by the National Science Teachers Association. He lives in New York.

I found this book on when I was looking for a gift for my barely 6-year-old grandson. There were

only 2 reviews so I checked to see if my local library carried it. They did so I looked through it. I could tell immediately that it would interest him. It was only $4 and he LOVES it. There are real pictures of knights that come from current re-enactments, and that makes it seem very real to my grandson. He is fascinated with it. I thought the section on castles might not interest him, but it does. I would highly recommend this book for probably 5 to 8 year-olds. I can't verify that all in the information in it is 100% accurate, but that is not my concern for a 6 year old that thinks knights are invincible!

The content of the book was informative. The book condition, however was unsatisfactory due to water damage. The seller has refunded the purchase amount plus shipping.
