ASHTON CRUISE Entrepreneur - investor - writer - motivational speaker. Born in America and raised in the writings, teachings and concepts of luminaries such as: "Warren Buffet","Benjamin Graham."... He considers himself "somebody passionate for knowledge". He has a reading average of approximately 800 pages per DAY, with special interest on: markets, applied psychology in business, financial freedom, new forms of investment, ways to trade, world economy, technology, and even comparisons between developments in investment ways. Ashton says that the key to "success", both personally as well as professionally, is based on the cohesion between two influential factors: "The fervent pursuit search and pursuit of our happiness" accompanied by "a winning mentality, through financial education, which would lead to freedom." Thus, we would not have to worry or stress out for cumbersome questions such as: How high is my salary? When is a good time to make use of a few my vacation days? We might even find new ways to invest our most precious asset: time. As we mentioned earlier, Ashton associates the term "monetary poverty" to "mental poverty", sustains and gives evidence that "serious complaints" and poverty in general, are not due to trite phrases like: "my salary is very low," "On what am I going to invest in if I have no money?" or "society does not allow me to have a decent job", but rather to the great lack of information and financial education that exists in society; huge gaps that Ashton argues he will not rest until fully covering them. Thanks for reading!

Pablo Escobar is another excellent book written by Ashton Cruise. There’s just something about his crisp, informational writing style that draws you in and keeps you reading.I thoroughly enjoyed learning about the life and times of Pablo. Amazing how he turned out to be such a powerful drug dealer, with a cut throat attitude, and billions of dollars in his pocket.My recommendation is you read this book and let the author know your thoughts- promise it’ll be worth your time- BRAVO!

Very misinformed about the life of Pablo Escobar. I am a close friend of the family and can tell you that the writer is very misinformed. Starting with lehder being Colombian/ American when he was Colombian/ German and he had already built his home in Normans Cay in the Bahamas. Also states pablo stole cars from people pulling them out of their cars another mis information. You want to read true and accurate buy the accountants story or my brother Pablo or killing Pablo. Don’t waste your money on this book

If your looking for a brief but thorough biography of Pablo Escobar, then I would recommend that

you read this book.

If what you need is a short informational biography, this will do. Otherwise, this feels like someone's college paper turned paperback (few pages, large font, feels very home printed). It's VERY short, very basic overview of his life. It could work for some people depending on the use, but not really what I was looking for.

The book is a wild ride into the story of a man that can leave no one feeling indifferent, this is a must read!!!For people who love hearing stories of crime, wealth, and human conflict, there is no better story or anti-hero than Pablo Escobar, having heard a little of his story I thought I would have a go at this book, and boy was I in for a shocking tale of vice, degradation, riches and extreme sadistic violence, this book will take you on journey from Pablo's impoverished beginnings to his rise as the most dangerous Drug kingpin in the history of the west, the book is written in an easy to read yet gripping style, and it will show you the two faces of one of the most feared men in recent history, the devil and the angel, both of which inhabited Pablo's soul, the book presents the facts yet allows you to make your own judgments about Escobar, the tale is addicting and the character of Pablo will have you hating him while also understanding his motivations. Get this book, sit back and enjoy the ride!!!

What a great biography. This book is loaded with tons of information regarding Escobar, starting with his childhood and adolescence as well as the societal changes that were taking place as he grew up which eventually lead to the large cocaine cartels. There is information regarding the rise of the drug cartels and how Escobar took the lead and how the Medellin Cartel became the biggest in all Columbia. There is also a great look into the controversial discussion regarding Escobar being a Robin Hood figure to Columbia; acting as a savior or guardian to the poor while being a ruthless criminal.

I'm not a big reader but am trying to read more. I guess I should of started with reading the description of this "book", I wrote longer essays in college that this! With a man like Pablo Escobar one would think an intelligent book could be written about that mans life that would be more that 40 pages long and better grammar. Many parts of it made me question the author knowledge of the subject matter, I suggest you save your money and watch the history channel for better information about this drug lord.

I really liked this book. That is why I gave it 5 stars. Pablo Escobar deserved every star and more. Yes I will definitely recommend this to friends. Actually already did.
