Really first book EVER to show how to do makeup with links to how to videos on the author's website for each part if needed. Finally had the opportunity from a book to learn and understand what to do. Why don't other makeup artists include this information in their books???

I have been studying makeup for 40 years and there were a lot of new things I learned in this book. Highly recommend!

This book is filled with lots of detail and full color pictures, making it super easy to follow along. Also help are the links to tutorial videos!

Really well written and informative book. Love his different approach. The complementary videos are awesome! I learned a lot! Maybe I missed it but the only thing I didn't see was how to chose eye shadow colors. Perhaps this will require a whole new book....which I'll buy immediately!

Ever since I first discovered Chris Scott's MakeupGourmet video tutorials I've bern a fan. His explanations are clear, to the point and very usable for the regular woman. I have yet to apply his new method, but reading the book it made a lot of sense.

Amazing. Easy to follow techniques. I gained a different level of knowledge.

Makeup application demystified. Thanks, Chris, for this thoughtful and scientific diagram; I've used it daily since I bought the book! I look forward to meeting you in person one day.

top notch! buy it! you will learn the science behind beauty. Exactly what I was looking for!
