## Customer Reviews

Great book!!! It was far more useful than I thought it would be. Most of the answers to the questions that I was asked during the rotation was in here. I read the other surgery books too but this (and Pestana's) are brief and to the point, making it easier to remember the pertinent details.

This is a must have for anyone starting their Gen Surg rotation. Undoubtedly the only book you need. I tried reading from some of our required textbooks and it took me hours to compile the most

important facts...which were summarized within a few pages of this book. Highly recommend.

A must if you have a surgery rotation coming up. It wasn't too helpful for me for the shelf exam at the end of the rotation, however, it was very useful for looking up a couple facts before going into a surgery. Downside is that the book is kind of heavy and it weighs your white coat down, but I think you will be behind other classmates if you don't utilize it.

If you prefer a question/answer based book this is a great resource during surgical rotation. Though I didn't read it from cover to cover, they had great illustrations of tools and procedures. Loved it so much I got Ob Recall for that rotation as well.

I would recommend this to any med student on their surgery rotation. It covers pretty much every surgical topic in just enough detail to be knowledgeable for rounding/surgery, and for the shelf.

Great and very comprehensive book if one plans to apply for surgery residency or wants to have a reference book. Would not plan on using it as primary clinical rotations book.

If you're looking at this book, chances are that you're rotating in surgery. This is a very good book to have on rotation. Depending on how experienced your attendings are when it comes to PIMPing, this will become helpful! But even besides that, the book is a very good preparation for your surgery rotation. Also remember that there is an Advanced Surgical Recall as well!

this is a great cheat book on your surgical rotation. it has 95% questions that your attending will ask you.
