Synopsis

Introducing: Over 2000+ Japanese Phrases to Sound Like a Native Japanese (Including Pronunciation Tips & Detailed Exercises). Would you like to try a different way of learning Japanese? Are you tired of the traditional methods teachers tell you to use? What if we told you there is a better, more care-free way of learning Japanese and expanding your vocabulary to unprecedented levels? Well, guess what? There is! One of the best ways to learn Japanese is by using practical conversation guides. You might feel like you don’t know where to start. That’s exactly why we created this book. Japanese Phrases + Pronunciation Guides = Faster Learning. We know how difficult it may seem to learn a foreign language from scratch, let alone trying to put all that learning into practice. But what you might not realize is that it’s fairly easy to fully incorporate the essentials of a language if you use pronunciation guides as a shortcut. Pronunciation guides allow you to virtually repeat out loud a certain ’pronunciation clue’ and without realizing it, you will be speaking almost perfect Japanese. This will in time allow you to expand your vocabulary soon enough to travel to Japan, getting a much better grasp of the Japanese language before you do. Practical conversation guides work because they eliminate the stress of forcing yourself to learn. Instead, when you repeat out loud the different sections we’ve prepared for you, you will learn Japanese with much less struggle! Your goal is to simply focus on a section at a time (they only a take few minutes to listen). Each chapter takes on multiple topics, including tips on how to build rapport with others, shopping, and asking for directions, just to name a new. We wanted these sections to be fun, interesting, and appealing, motivating you to keep on listening.

I just started reading this japanese language guide and I can tell that this will be very useful for me as I migrate to Japan soon. I am trying to learn japanese the fastest way possible and this was the book that was recommended to me. Clear instruction and explanations, Easy to follow guide and the approach of this book is different from the normal dictionary type language book I used to read. Glad I bought this book!

been looking for a reliable Japanese language guide here in kindle, This one seems to be the best one for me as I read its overview. I saw it was on $0.99 so I immediately purchased it. Looking forward to using this book in my Japanese language class. :)

Excellent

served its purpose

While the information is well-organized, the digital edition of this book is obnoxious to navigate. There’s no menu of sections in the sidebar and page-turning gets *stuck*.

It was helpful as an addition to other Japanese language materials
