Customer Reviews

This book was handy and reasonably informative during a recent trip to the Texas Hill Country. It provides a quick overview of the basics of the area and is generally more up to date than other guides we considered. However, do not expect significant detail re places to eat and bed down. Yee Haw!

Lonely Planet is so reliable. This is exactly what I needed. I use it in combination with the internet for the most up-to-date prices, etc.

Lonely Planet always does a great job.
